Myth or Reality?

Apprenticeships limit career options

Apprenticeships can provide a solid foundation, but they also offer transferable skills that can be valuable across industries. The skills gained can open doors to various career paths.

Did you know?

An excellent way to work out what the best **career** route in the NHS might be for you is to complete the [350 Careers Quiz](#). This should take no longer than 5 minutes.

BALCARRAS SCHOOL

18th October 2023
THE CRYPT SCHOOL

19th October 2023
BARNWOOD PARK

CHELtenham BOURNSIDE SCHOOL

7th November 2023
BOURNSIDE SCHOOL

15th November 2023
PATE'S GRAMMAR SCHOOL

STAFF AWARDS - APPRENTICE OF THE YEAR

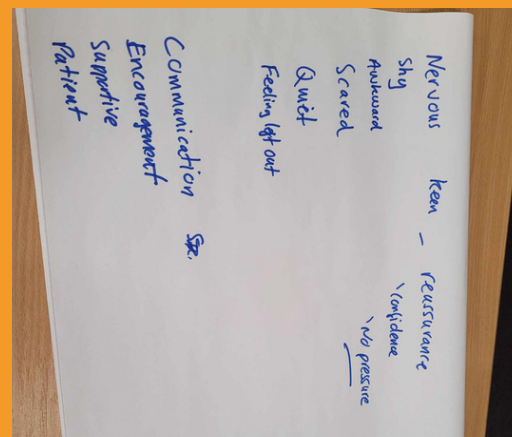

Last week Lisa and Becki were delighted to attend Gloucestershire Hospitals NHS Foundation Trust's Staff Awards in which the **Apprentice of the Year** was awarded. Oliver Pennels from Lung Function won this year! Our other nominees were Violet Williams from Head and Neck Services and Hayley Gorrett from Hearing Services. An excellent evening to celebrate all of their hard work and of all in our Trust as a whole!

T LEVEL THURSDAY - WORK BASED SUPERVISOR EFFECTIVE MENTORING WORKSHOP

Last Friday Becki from the Gloucestershire Hospitals team hosted an Effective Mentoring Workshop for our T Level **Work Based Supervisors**. This important role is integral to supervising and mentoring our T Level students during their time on placement with us. Jen, one of our Work Based Supervisors also attended to give her own guidance and knowledge. Some excellent brainstorming was done regarding in particular the qualities and skills a Work Based Supervisor must possess and how they must handle in particular the students first day on placement.

APPRENTICESHIP OF THE WEEK

BUSINESS ADMINISTRATOR

The [Level 3 Business Administrator](#) apprenticeship is designed to equip aspiring professionals with the skills and knowledge necessary to thrive in the field of administration. Whether you're a recent school leaver or someone looking to upskill and advance in your career, this apprenticeship provides a solid foundation for success. Knowledge, skills and behaviours that this apprenticeship entails include effective use of IT systems such as Microsoft Office, record and document production including understanding of confidentiality, understanding of efficient organisational skills and naturally effective communication skills written and verbal. Upon completing the Level 3 Business Administrator Apprenticeship you could explore roles in particular within a healthcare setting such as within payroll, data entry, IT, marketing/comms, education and development or finance, or for instance administration within a clinical setting (ward clerks etc.) You may also wish to take on a more advanced apprenticeship if such a program is offered including the [Level 4 Policy Officer](#) or a leadership and management scheme such as the [Level 5 Operations/Departmental Manager](#).

CAREER OF THE WEEK

AUDIOLOGY

Our **Audiology** team focus on the study and investigation of hearing, balance, and related disorders. A career in such a sector will likely require a undergraduate degree in audiology or a related field such as biology or psychology. You could also enter through a degree apprenticeship such as the [Level 6 Healthcare Science Practitioner: Audiology](#). A work experience placement may also be of use in a department. You will naturally need to have outstanding verbal and written communication skills, attention to detail, empathy and willingness to research and implement new methods and practices.

T LEVEL THURSDAY - PARENTS EVENING

- On Wednesday evening Lisa, Becki and Annie from the GHFT team delivered a T Level Parents Evening to inform prospective T Level parents/carers about the nature of a student's placement, the process of the qualification as well as what they can expect to receive from their time at the Trust such as with regards to our Values and Behaviours. Jen, one of our Work Based Supervisors was also on hand once again to provide her expert knowledge and best practice.

Healthcare Science Event

SATURDAY 9TH MARCH 2024

10AM - 2PM

LOCATION TBC - GLOUCESTER BASED

Open to Year 9s (13/14) and above, college students, anyone aged 14 years and above (parents, carers, teachers and careers advisors also welcome!)

An opportunity to talk to, and see some of the fascinating careers that are not only scientific but roles that are for people who want to care, problem solve, work with others. If you have an inquisitive mind, then come along and see the many, many professions that could suit YOU!
