

As a student here, I wanted my school to have a 'better' name featuring Kings, Queens, battles or landmarks. However, as a Governor of this school I am proud to know that it very much is Monmouth Comprehensive School.

This 21st Century education hub invites students to be themselves and to be their best. The school welcomes tomorrow's athletes, actors, musicians and artists, future doctors, dentists, mathematicians and civic leaders. We provide a learning experience that nurtures the next generation of builders, engineers, business owners, farmers and pharmacists so they can be their best in an ever-changing world. But for me, the more fundamental lessons are learned outside the classroom where we encourage all of our students to respect and live alongside each other within the school and wider communities. All are welcome and learn to acknowledge, accept, support and live alongside one another in this truly comprehensive school community.

Today I am proud to be a part of the strategic planning for MCS. If you live in Monmouth or anywhere in our catchment areas you are welcome to study, be secure and succeed at Monmouth Comprehensive School.

Mr A Smith  
Parent and Governor
