

I have three children, three personalities and three different packages of hopes and aspirations; all of which have been nurtured and encouraged at MCS. I have been delighted to see my children grow in confidence and character whilst thoroughly enjoying their academic journey.

I have always loved the concept of “Freedom with responsibility” and feel that encouraging students to “Work hard. Be kind” gives simple clarity. MCS consistently has high standards and expectations, of behaviour as well as academic performance. I applaud this.

I am passionate about all our children having the best opportunity to reach their potential and have no doubt that MCS provides this. Teachers really put a huge emphasis on bolstering individual strengths in this excellent individualised and warm environment. The teachers are highly educated, thoughtful, and encouraging. They provide rigorous academic challenges, the tools and strategies needed to meet those challenges and the passion to facilitate success .

I have been a parent governor for 6 years and am also the chair of the Student Progression committee. As a governor I am part of a highly skilled, committed team. Our role is to support and challenge the headteacher, to ensure that MCS deploys resources appropriately and to ensure that every child has the opportunity to maximise their potential. The governing body knows the school’s strengths and weaknesses well and I regularly see the dedication and focus of all the staff.

Mrs P Doody  
Parent and Governor
