Equality Act 2010 Disability Discrimination Act 2005 Additional Learning Needs Code for Wales Supporting Healthcare Needs – WG Guidance

Joint Council for Qualifications AAE Guidance

Aims

Monmouth Comprehensive School is committed to ensuring that all our learners, including those with healthcare needs, are fully supported in accordance with our legal responsibilities and statutory duties. A cooperative and proactive approach to providing effective and individual support is promoted.

Monmouth Comprehensive School has arrangements in place as outlined in this policy to focus on meeting the needs specific to the learner and consider how this impacts on their education, attainment and well-being. The school is committed to ensuring arrangements support learners and minimise disruption or barriers to their education. Arrangements will also consider any wider safeguarding duties while seeking to ensure all learners can access and enjoy the same opportunities, where safe to do so. Where possible, the school is committed to supporting the learner to build understanding and confidence to increasingly self-manage healthcare needs, depending on their ability to do so.

This policy links directly to Local Authority and Welsh Government guidance.

Roles and Responsibilities

The Governing Bodies will oversee the development and implementation of arrangements including:

- ★ complying with statutory duties
- ★ promoting the wellbeing of learners
- ★ supporting learners to uphold their rights
- ★ ensuring a clear understanding of roles and responsibilities
- ★ working collaboratively to meet the needs of the leaner
- ★ developing Individual Healthcare Plans (IHPs) and monitoring and reviewing arrangements (Appendix 3-5)
- ★ ensuring a policy is in place which covers emergency situations (Appendix 1)
- ★ ensuring appropriate training is available;
- ★ ensuring appropriate insurance is in place

The Head Teacher and Senior Leadership Team will ensure arrangements are developed and effectively implemented including:

- ★ working with the governing body to ensure compliance
- ★ ensuring the school has a relevant policy
- ★ ensuring there is a clearly understood process of communication
- ★ ensuring robust processes for record keeping
- ★ clear emergency arrangements are in place (Appendix 1)
- ★ clear monitoring arrangements are in place

- ★ there is a key member of staff with responsibility for learners with healthcare needs
- ★ ensuring appropriate training is in place (Appendix 6)
- ★ discuss responsibility for Individual Healthcare Plans (IHP) with partners i.e. Health to determine the most appropriate lead (Appendix 3-5)
- ★ ensure appropriate environment is available (for example in relation to toileting)
- ★ ensuring appropriate dialogue with the LA in relation to insurance
- ★ ensuring annual reports to Governors regarding arrangements in place
- ★ ensuring learners are included in activities unless there is a clear evidenced based reason to the contrary.

Teachers and support staff will receive relevant training (from LA and Healthcare professionals as required) and ensure they:

- ★ understand the policies and procedures in place in the setting
- ★ understand and follow communication protocols
- ★ are aware of learners with more chronic needs and those with IHPs
- ★ are aware of what to do in an emergency, the schools emergency procedures, and be aware of the signs of common life threatening emergencies
- ★ listen to the views of learners and parents when putting support in place
- ★ ensure learners know who to tell if they feel unwell
- ★ ensure learners are not excluded from activities
- ★ be aware of the impact of healthcare needs on learning and wellbeing
- ★ keep parents informed of any impact of the learners' healthcare needs

Parents and learners will:

- ★ receive updates regarding healthcare issues/changes that occur within the education setting
- ★ be involved in the creation, development and review of an IHP (if any) this includes health
- ★ provide the education setting with sufficient and up-to-date information about healthcare needs, including any guidance regarding the administration of medicines and/or treatment from healthcare professionals. (see Appendices)
- ★ where appropriate, learners should be encouraged and enabled to manage their own healthcare needs
- ★ inform the education setting of any changes such as type of medication, dosage or method of administration
- ★ provide relevant in-date medicines (monitoring and providing new medication as required), correctly labelled, with written dosage and administration instructions
- ★ ensure a nominated adult is contactable at all times and all necessary forms are completed and signed

★ inform the education setting if their child has/had an infectious disease or condition while in attendance

Accessibility

Monmouth Comprehensive School will ensure that all learners are supported to participate in trips and visits, structured and unstructured social activities, such as breaks, breakfast club, productions, after-hours clubs and residential visits. Dietary requirements of learners with healthcare needs are considered as necessary. Risk assessments and accessibility plans are in place for all learners as appropriate.

(See Equalities Act 2010 and School's Individual Strategic Equality Plan)

(See the Equality Act 2010 (Statutory Duties) (Wales) Regulations 2011 S.I.2011/1064). gov.wales/topics/people-and-communities/equality-diversity

Information Sharing

Monmouth Comprehensive School will ensure that all information is kept up to date and there is a clear information sharing protocol in place agreed / signed by parents and the learner. Teachers, supply teachers and support staff (this may include catering staff and relevant contractors) should have access to the relevant information, particularly if there is a possibility of an emergency situation arising.

- ★ A register of learners with high-risk medical needs is shared with all staff through the secure staff-share area. Further information on high-risk health needs is located on the student profile within our School Information Management System, this includes emergency procedures in place.
- ★ A register of First Aid trained staff is located within our electronic staff planner, with the date of qualification and renewal requirement date.
- ★ We use staff meetings, the bulletin and email to help ensure staff are aware of the healthcare needs of students they have or may have contact with.
- ★ If a learner has said they feel ill, appropriate staff are made aware via email; e.g. a student had an asthma attack in morning, all other staff the student would see later that day are made aware to look out for any signs of deterioration/further illness. This could include nonteaching staff such as lunchtime staff or administration support staff, where appropriate. The person in receipt of this information (i.e. administration staff, Form Tutor) will ensure it is shared with the Inclusion and Wellbeing Team to aid communication with all staff.
- ★ We make the Healthcare Needs Policy easily available and accessible, online and in a hard copy when requested.
- ★ We provide the learner/parents with a copy of our information sharing policy. This should state the type of bodies and individuals with whom the learner's medical information may be shared.

- ★ We ask parents to sign a consent form which clearly details the bodies, individuals and methods through which their learner's medical information will be shared. Sharing medical information can be a sensitive issue and the learner should be involved in any decisions.
- ★ We include student councils, 'healthy schools' and other learner groups in the development of the setting's healthcare needs arrangements, where appropriate.
- ★ We consider how peers may be able to assist learners, e.g. they could be taught the triggers or signs of issues for a learner, know what to do in an emergency and who to ask for help. (This would be discussed with the learner and parents first to decide if and which information can be shared.). It is important in all of these cases that peer support is not used as a means to take responsibility for a learner with a healthcare need.
- ★ We will ensure that our students (or their peers) know who to tell if they feel ill, need support or changes to support them.
- ★ We will listen to concerns of students' (or their peers) if they feel ill at **any** point and consider the need for medical assistance (especially in the case of reported breathing difficulties).

Procedures and Record Keeping

Monmouth Comprehensive School collects and maintains the following as appropriate:

- ★ Contact details for emergency services
- ★ Parental agreement for educational setting to administer prescribed medicine (Appendix 2)
- ★ Senior Leadership of educational setting agreement to administer prescribed medicine (Appendix 2)
- ★ Record of medicine stored for and administered to an individual learner (Stored through our secure electronic recoding system)
- ★ Request for learner to administer own medicine
- ★ Staff training record administration of medicines (Appendix 6)
- ★ Storage and access and administration of medication

Information can be found in the Appendices

Storage, Access and Administration

All medicines are stored securely and safely. Monmouth Comprehensive School does not store surplus medication. Medicines should be in their original dispensed container, labelled with the name of the learner, medicine name, dosage and frequency, and expiry date. Monmouth Comprehensive School only accepts prescribed medicines and devices. Over the counter medication will not be administered or stored by school staff. Learners will know where their medication is stored. Administration of medication for any learners under the age of 16 requires parental consent.

Emergency Procedures

All staff including temporary staff are aware of medical conditions and understand their duty in an emergency.

Where a learner has an IHP, this will clearly define what constitutes an emergency and explain what to do. Staff should be made aware of emergency symptoms and procedures through a Medical Care Plan. Where there is no IHP or where there is no diagnosis regular first aid will be administered.

All staff know what action to take in an emergency and receive updates annually, as a minimum, through the staff planner. If a learner needs to attend hospital a member of staff will stay with them until the parent / carer arrives or accompany a child taken to hospital in an ambulance. Staff will not take students to hospital in their own car; parents / emergency contacts will be contacted, alongside the emergency services.

Training

Training provided will ensure staff are competent, have confidence in their ability to support learners and fulfil the content of an IHP. We keep a training log to ensure we are up to date with all requirements.

Monmouth Comprehensive School will run frequent First Aid Training (organised by the Business Manager) to ensure an appropriate number of staff are trained. Further training on individualised conditions will be organised based on student need by the Business Manager, alongside the Assistant Headteacher - Inclusion.

Qualifications and Assessments

- ★ Teachers are expected to use their professional judgement to support learners with healthcare needs.
- ★ We recognise that effective liaison is imperative when learners with healthcare needs are approaching assessments, including those undertaking examinations in hospital or at home. The NEA components may help learners to keep up with their peers. (EOTAS teaching staff may be able to arrange for concentration on this element to minimise the loss of learning while absent from school). Liaison between the school and EOTAS provision is important, especially where the learner is moving from education setting or home to the hospital on a regular basis.
- ★ We will ensure that applications for special arrangements will be submitted by school to the awarding bodies as early as possible. (Awarding bodies may make special arrangements for learners with permanent or long-term disabilities and learning difficulties, or temporary disabilities and illnesses, who are taking public examinations such as National Tests, GCSEs or A levels) through the Examination Officer and Assistant Headteacher Inclusion.
- ★ The school will take advice from the Local Authority if required.
- ★ We recognise it is unacceptable practice to request adjustments or additional time at a late stage. They will have to be applied for in good time. Consideration must also be given to practice examinations or other tests.

Full guidance on the range of special arrangements available and the procedures for making applications is given in the Joint Council for Qualifications' circulars *Adjustments for candidates with disabilities and learning difficulties* (2016) and *A guide to the special consideration process* (2016), which are both accessible from the Joint Council for Qualifications' website.)

(Adjustments, adaptations or additional time for learners taking the National Reading and Numeracy Tests should be based on normal classroom practice for particular needs.)

Teachers are expected to use their professional judgement to support learners.

Guidance is provided in the current National Reading and Numeracy Tests – Test administration handbook and at:

AA regs 22-23 FINAL.pdf (jcq.org.uk)

EOTAS

- ★ In the case of a short absence from school (less than 15 days), we will provide work to be completed at home, if the student's condition permits, and will support the student to catch up on their return.
- ★ In the eventuality that a student is absent for more than 15 days (consecutive or cumulative) we will work with the Local Authority and Health Professionals to ensure the needs of the student are met.

Integration

At Monmouth Comprehensive School, we recognise that we have a key role to play in the successful integration after diagnosis or reintegration of students with healthcare needs. We will be proactive and work with health professionals and the Local Authority as appropriate, as well as other students in supporting the transition. We will train staff in a timely manner to assist the student's return. The support will be considered by key parties including the student and parent/carer, and will be reflected in the student's IHP.

When a student is discharged from hospital appropriate information should be provided to parent/carers which should be shared with us. We will work with the parent/carer and the relevant health professionals to manage the students return. We will work with the Local Authority to follow up with the student after reintegration

Monitoring and Review

All policies arrangements, and procedures are reviewed regularly. This will be annually or more often where there are changes to the medical condition. IHPs are reviewed in line with the healthcare need and relevant medial guidance.

Complaints

Complaints can be made in line with the school's Complaints Policy and details can be found on **our** school website.

Unacceptable Practice

We will ensure that staff are made aware of this by bringing the policy to the attention of all staff and Governors on an annual basis.

(Please see the 'Unacceptable Practice' section in the Welsh Government's 'Supporting Learners with Healthcare Needs' statutory guidance: <u>http://learning.gov.wales/resources/browse-all/supporting-learners-with-healthcare-needs/?lang=en</u>) *Additional Guidance is available in the Welsh Government publication as above*

This policy was approved by the Governors

Appendix i – Contacting Emergency Services

Monmouth Comprehensive School Contacting Emergency Services

Request for an Ambulance

Dial **999**, ask for an ambulance, and be ready with the following information where possible.State your telephone number 01600 775177

2. Give your location as follows Monmouth Comprehensive School, Old Dixton Road, Monmouth

3. State that the postcode is NP25 3YT

4. Give the exact location in the education setting - faculty area, floor and room number

- 5. Give your name.
- 6. Give the name of the student and a brief description of symptoms.

7. Inform Ambulance Control of the **best entrance** and state that the crew will be met and taken to Main Reception (*indicate this is a new school building and the entrance of off the Burgage*)

8. Don't hang up until the information has been repeated back.

Speak clearly and slowly and be ready to repeat information if asked to. Ensure Reception are aware that an ambulance has been called and the location of the injured person.

Appendix ii – Consent for Prescribed Medication

Monmouth Comprehensive School

PARENT/CARER CONSENT FOR SCHOOL TO ADMINISTER PRESCRIBED MEDICATION TO A STUDENT

• Our school **will not give** your child medication unless you complete and sign this form.

• If more than one medication is to be given, a separate form should be completed for each one.

• A new form must be completed when dosage changes are made.

• Where medication is prescribed to be taken in frequencies which allow the daily course of medicine to be administered at home, parents should seek to do so, e.g. before and after school and in the evening. (However we understand there will be instances where this is not appropriate.)

• Parents/carers will be informed as stated in the school policy when a child refuses their medication or when emergency medication is administered.

• Parents/carers can request sight of records.

• Without exception students must not share their medication for any reason with another student.

□ Individual Healthcare Plan not	required

Appendix iii – IHP Template

Individual Healthcare Plan (IHP) Purpose of an IHP

- ★ IHPs set out what support is required by a learner. They do not need to be long or complicated.
- ★ Our school will ensure our healthcare needs policy include information on who has overall responsibility for the development of the IHPs.
- ★ IHPs are essential where healthcare needs are complex, fluctuating, long term or where there is a high risk that an emergency intervention will be needed.
- ★ However, not all learners with healthcare needs require an IHP and there should be a process in place to decide what interventions are most appropriate.

When an IHP is appropriate

In most cases, especially concerning short-term illnesses such as those requiring a course of antibiotics, a detailed IHP may not be necessary. In such circumstances it may be sufficient to only complete the form in see **Appendix 2**.

In such circumstances it may be sufficient to record the name of prescribed medication, dosage, time administered and any possible side effects. These procedures should be confirmed in writing between the learner (where appropriate), the parents and the education setting.

However, when a learner has continual or episodic healthcare needs, then an IHP may be required. If these needs are complex and the learner is changing settings, then preparation should start early to help ensure the IHP is in place at the start of the new term.

Links to IHP templates for specific medical conditions:

- ★ <u>http://medicalconditionsatschool.org.uk/</u>
- ★ Many third sector organisations have produced condition-specific template IHPs that could be used e.g. Asthma UK <u>https://www.asthma.org.uk/advice/child/manage/action-plan/</u> or Diabetes UK <u>https://www.diabetes.org.uk/Guide-to-diabetes/Your-child-and-diabetes/Schools/IHP-a-childs-individual-healthcare-plan/</u>
- ★ Where a student has an additional educational need (ALN) the IHP will be linked or attached to any Statement of ALN/ individual education plan/individual development plan or learning and skills plan (post 16).
- ★ Many third sector organisations have produced condition-specific template IHPs that could be used e.g. Asthma UK <u>https://www.asthma.org.uk/advice/child/manage/action-plan/</u> or Diabetes UK <u>https://www.diabetes.org.uk/Guide-to-diabetes/Your-child-and-diabetes/Schools/IHP-a-childs-individual-healthcare-plan/</u>
- ★ Where a student has an additional educational need (ALN) the IHP will be linked or attached to any Statement of ALN/ individual education plan/individual development plan or learning and skills plan (post 16).

- ★ A personal evacuation plan and risk assessment may also be attached
- ★ The governing body will ensure that all IHPs are reviewed at least annually or more frequently should the IHP state otherwise or should there be new evidence that the needs of the student have changed.
- ★ Our Governing body will ensure that healthcare needs arrangements, both wider education settings' policies and IHPs, are supported by clear communication with staff, parents and other key stakeholders to ensure full implementation. It is essential that all information is kept up to date. All information-sharing techniques such as staff noticeboards and school intranets must be agreed by the learner and parent in advance of being used, to protect confidentiality.
- ★ We are compliant in line with the Data Protection Act 1998 and the WASPI Information Sharing Policy (www.waspi.org)
- ★ Our managing healthcare needs policy and the information sharing policy is made available to parents/carers via our school website <u>www.monmouthcomprehensive.org.uk</u>

Appendix iv – IHP Requirement

The following diagram (figure 1) outlines the process for identifying whether an IHP is needed

Identify learners with healthcare needs

- Learner is identified from enrolment form or other route.*
- Parent or learner informs education setting of healthcare need.
- Transition discussions are held in good time, e.g. eight weeks before either the end of term or moving to a new education setting.
- Student is identified by healthcare professional and information passed onto the setting

Gather information

If there is a potential need for an IHP; the school should discuss this with the parent/carer and the student themselves. This must be done where appropriate in conjunction with the relevant healthcare professional. This will support the decision making process about whether an IHP is needed.

Establish if an IHP should be made

The education setting should organise a meeting with appropriate staff, the parents, the learner and appropriate clinicians to determine if the learner's healthcare needs require an IHP, or whether this would be inappropriate or disproportionate. If consensus cannot be reached, the head teacher should take the final decision, which can be challenged through the complaints procedure.

If an IHP should be made

- School lead to be identified through Wellbeing / Inclusion Morning Meetings
- The education setting, under the guidance of the appropriate healthcare professionals, parents and the learner, should develop the IHP in partnership.
- The education setting should identify appropriate staff to support the learner, including identifying any training needs and the source of training, and implement training.
- The education setting should circulate the IHP to all appropriate individuals.
- The education setting should set an appropriate review date and define any other triggers for review.

Appendix V - IHP

Monmouth Comprehensive School Individual Healthcare Plan (IHP)

Please note: this is a very comprehensive IHP. Not all sections will be applicable. The school only needs to use the sections that are relevant and helpful to the care of the student.

If health professionals have already provided their own health care plan, the school might not need to create an IHP as long as the one from the health professional covers all the information that the school needs.

1. STUDENT INFORMATION

1.1 Student details

Student's name:	
Date of birth:	
Year group:	
Nursery/School/College:	
Address:	
Town:	
Postcode:	
Medical condition(s):	
Give a brief description of the medical	
condition(s) including description of	
signs, symptoms, triggers, behaviours.	
Allergies:	
Date:	
Document to be updated/reviewed:	
Review triggers:	

1.2 Family contact information

Name:		
Relationship:		
Home phone number:		
Mobile phone number:		
Work phone number:		
Email:		

1.3 Essential information concerning this students' health needs

	Name	Contact details
Specialist nurse (if applicable):		
Key worker:		
Consultant paediatrician (if applicable):		
GP:		
Head teacher:		
Link person in education:		
Class teacher:		
Health visitor/ school nurse:		

ALNco:	
Other relevant teaching staff:	
Other relevant non-teaching staff:	
Person with overall responsibility for	
implementing plan:	
Person responsible for	
administering/supervising medication:	
Arrangements for cover in these two	
peoples absence:	
Any provider of alternate provision:	

This student has the following medical condition(s) requiring the following treatment.	
Medication administration	Please complete parent/carer agreement for school to administer medication form (appendix 2) and attach to this IHP.

1.4 Sharing information and record keeping

In the best interests of the student the school might need to share information with school staff and other professionals about your child's healthcare needs e.g. nursing staff.	Yes / No	(please circle)
Do you consent to this information being shared?		
What records will be kept about the student's healthcare needs, and how it will be communicated with others?		

2. ROUTINE MONITORING (IF APPLICABLE)

Some medical conditions will require monitoring to help manage the student's condition.

What monitoring is required?	
When does it need to be done?	
Does it need any equipment?	
How is it done?	
Is there a target? If so what is the target?	

3. EMERGENCY SITUATIONS

An emergency situation occurs whenever a student needs urgent treatment to deal with their condition.

What is considered an emergency	
situation?	
What are the symptoms?	
What are the triggers?	
What action must be taken?	
Are there any follow up actions (e.g. tests	
or rest) that are required?	

4. IMPACT OF MEDICAL CONDITION AND MEDICATION ON STUDENT'S LEARNING

(Impact statement to be jointly produced by health professional and a teacher)

How does the student's medical	
condition or treatment affect learning?	
i.e. memory, processing speed,	
coordination etc.	
Actions to mitigate these effects	
Does the student require any further	
assessment of their learning?	

5. IMPACT ON STUDENT'S LEARNING and CARE AT MEAL TIMES

	Time	Note
Arrive at school		
Morning break		
Lunch		
Afternoon break		
School finish		
After school club (if applicable)		
Other		

 \Box Please refer to home-school communication diary

□ Please refer to school planner

6. CARE AT MEAL TIMES

What care is needed?	
When should this care be provided?	
How's it given?	
If it's medication, how much is needed?	
Any other special care required?	

7. PHYSICAL ACTIVITY

Are there any physical restrictions caused by	
the medical condition(s)?	
Is any extra care needed for physical activity?	
Actions before exercise	
Actions during exercise	
Actions after exercise	

8. TRIPS AND ACTIVITIES AWAY FROM SCHOOL

What care needs to take place?	TRIPS AND ACTIVITIES AWAT FROM SCHOOL	
What care needs to take place.	/hat care needs to take place?	

When does it need to take place?	
If needed, is there somewhere for care to take	
place?	
Who will look after medication and equipment?	
Who outside of the school needs to be informed?	
Who will take overall responsibility for the student	
on the trip?	

9. SCHOOL ENVIRONMENT

Can the school environment affect the student's medical condition?	
How does the school environment affect the	
student's medical condition?	
What changes can the school make to deal with	
these issues?	
Location of school medical room	

10. EDUCATIONAL, SOCIAL & EMOTIONAL NEEDS

Students with medical conditions may have to attend clinic appointments to review their condition. These appointments may require a full day's absence and should not count towards a student's attendance record.

Is the student likely to need time off because of	
their condition?	
What is the process for catching up on missed	
work caused by absences?	
Does this student require extra time for	
keeping up with work?	
Does this student require any additional	
support in lessons? If so what?	
Is there a situation where the student will need	
to leave the classroom?	
Does this student require rest periods?	
Does this student require any emotional	
support?	
Does this student have a 'buddy' e.g. help	
carrying bags to and from lessons?	

11. STAFF TRAINING

Governing bodies are responsible for making sure staff have received appropriate training to look after a student with regard to healthcare administration, aids and adaptive technologies. School staff should be released to attend any necessary training sessions it is agreed they need.

What training is required?	
Who needs to be trained?	
Has the training been completed?	
Head teacher/delegated person signature	

12. TRANSPORT TO SCHOOL

What arrangements have been put in place?	
Who will meet the student in school?	

13. PERSONAL CARE

For students requiring intimate care as part of their IHP, please refer to the schools intimate care policy.

What arrangements have been put in place in relation to any personal care needs across the school day?	

14. PLEASE USE THIS SECTION FOR ANY ADDITIONAL INFORMATION FOR THE STUDENT.

We suggest the following are stored together:

- □ IHP from health
- □ Medication consent form (if applicable)
- □ Statement of SEN/ ALN IDP /individual education plan / learning and skills plan
- □ One page profile
- □ Risk assessment
- □ Personal evacuation plan
